

NOTE! before starting!
Then place your logo/text flat and scrape on top of the mounting stage!
You will need: Cloth, painters tape, ruler, scissor and the enclosed scraper for installation.

WHEN YOU ABOUT TO MOUNT TEXTS OR LOGOES:

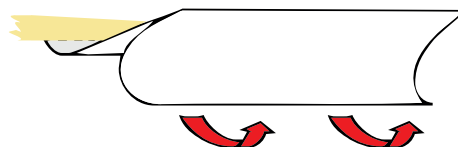

1. Clean the surface where the texts/logoes is to be mounted. REMEMBER the surface must be completely clean and dry.
 YOU CAN CLEAN WITH RUBBING ALCOHOL OR SOAPY WATER.

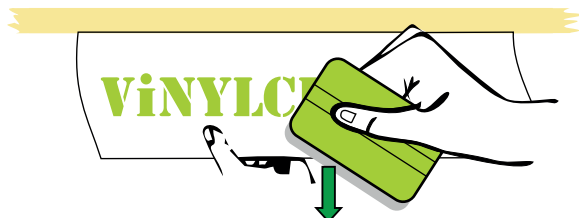

2. Place the text in the desired place, then tape the text/logo on the top.

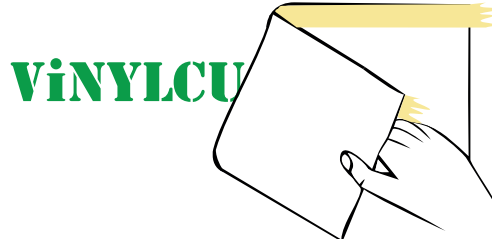

3. Long texts/logos can (after they are placed) advantageously be cut up and mounted in smaller pieces.

4. Then tilt the text/logo up and peel off the back paper.

5. Scrape thoroughly from top to bottom with the attached scraper. Remember to hold the rest of the text/logo slightly out and away from the surface.

6. Make sure you've scraped all over text /logo. Then slowly remove the mounting tape from left to right. Then journey is ended with a great result.

IMPORTANT: THE SURFACE CAN BE WASHED NO EARLIER THAN 72 HOURS AFTER MOUNTING.
